

KRIANGRIT BOONSAWA

Legal Officer | Contract Management | Legal Technology
Kriangrit.Bsw@gmail.com | 094-939-9251 | Bangkok, Thailand

PROFESSIONAL SUMMARY

Legal & Compliance professional with 5+ years of experience in regulatory compliance, contract management, and corporate legal operations. Experienced in coordinating directly with government authorities including the OIC, DBD, Revenue Department, and Land Department. Skilled in cross-departmental legal advisory within regulated financial services environments. Distinguished by a consistent track record of identifying operational inefficiencies and independently developing automation solutions — including AI-assisted workflows using Google Apps Script and Gemini API — that reduce manual workload and strengthen compliance controls across the organisation.

WORK EXPERIENCE

Legal Officer

August 2023 – Present

Ocean Life Insurance Public Company Limited | Legal Office

Consultant Section — Core Responsibilities

- Monitor daily OIC legislative and regulatory updates; prepare impact summaries and notify relevant departments to ensure timely compliance.
- Provide legal advisory to cross-departmental teams on regulatory matters, internal policies, and OIC-related compliance requirements.
- Review advertising and PR materials for compliance with OIC regulations and consumer protection laws prior to publication.
- Provide legal input on new insurance product development ahead of OIC regulatory submission.
- Serve as a primary legal advisory point of contact for internal business units, responding to day-to-day legal inquiries across operational, HR, and commercial matters.
- Coordinate company registration filings and submissions to government agencies including the DBD, Revenue Department, and District Office, following the consolidation of these responsibilities into the Consultant Section after internal restructure.

Legal Technology Projects (Self-Initiated & Team)

- Project 1 — OIC Compliance Email Automation System (Deployed)
 - Built a semi-automated workflow using Google Apps Script to manage incoming OIC policyholder verification requests end-to-end.
 - System auto-detects OIC email requests, logs case data into a shared Google Sheet registry used by 3 departments simultaneously, eliminating manual entry and reducing risk of missed cases.
 - Auto-generates and dispatches standardised response emails for 'no record found' cases (~85% of all inquiries) upon legal review and approval.
 - Processed 800+ OIC email threads covering ~1,200 individual verification requests in the first half of 2025, with zero missed cases since deployment.
- Project 2 — AI-Assisted Standard Contract Generation System (In Development)
 - Developing a trigger-based system that detects incoming contract request emails from operating departments and initiates an automated contract generation pipeline.
 - Integrates Gemini API to perform OCR on attached documents, extracting contract party details and flagging any fields requiring manual verification before proceeding.
 - On approval, the system auto-populates the company's standard contract templates with extracted data and generates a draft PDF for review.
 - A secondary Gemini API call then validates the generated contract against the standard template and cross-checks party information against the original source documents before finalisation.
- Project 3 — Centralised Bankruptcy Status Database (Team Project)
 - Contributing member of a cross-functional project to build a company-wide bankruptcy screening system accessible to all departments conducting customer transactions.
 - Centralises daily bankruptcy data (previously siloed within the Legal Office) into a shared lookup system, enabling real-time verification before executing transactions with customers.

- Reduces compliance risk by preventing the company from entering legal relationships with bankrupt individuals, while accelerating transaction processing across departments.
- Project 4 — AI-Powered Legal Advisory Chatbot (Team Project)
 - Identified a recurring pattern of repetitive legal inquiries from operating departments to the Legal Office, consuming significant attorney time on previously answered questions.
 - Compiled the Legal Office's full archive of past legal advisory responses and used them to train a custom Gemini Gem for internal use.
 - Deployed as a self-service tool allowing departments to query common legal questions directly, improving response speed and freeing up the Legal Office for higher-complexity matters.

Contract Section (Secondment, 5 months)

- Drafted, reviewed, and negotiated approximately 80–100 corporate contracts over a 5-month secondment, including lease agreements, service agreements, MOUs, and group insurance policies.
- Coordinated corporate registrations and filings with government agencies: Revenue Department, DBD, Land Department, and District Office.
- Conducted legal research and provided advisory opinions on contract terms and internal company regulations.

OIC Complaints Handling (Prior to Departmental Restructure)

- Addressed and resolved OIC complaints at a rate of 2–3 cases per month, coordinating responses with relevant departments and preparing formal submissions to the regulator.
- Responsibility subsequently transferred to the Litigation Section following an internal restructure of the Legal Office.

Paralegal

November 2019 – July 2023

Vichit Law Office

- Prepared legal pleadings and compiled comprehensive case files for civil and commercial court proceedings.
- Managed registration submissions and applications to government agencies on behalf of clients.
- Conducted legal research supporting attorney consultations, case strategy, and client advisory.

Legal Intern

April 2021 – September 2021

Lawyer Association of Thailand

- Performed legal research to support client consultations under supervising attorneys.
- Gained practical experience in legal advice and individual client counseling.

EDUCATION & CERTIFICATIONS

Bachelor of Laws (LL.B.)

Jul 2020

Ramkhamhaeng University | GPA 2.54

Lawyer License

Jun 2022

The Lawyers Council of Thailand

Barrister-at-Law Program (Thai Bar Examination)

Currently Enrolled

Institute of Legal Education, Thai Bar Association
